

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

making a jewel and
great resource in the
neighbourhood is hard
but the plans seem
to be worth the
date when the park is
renewed.

it is great the AGO
opens to the park and
potential uses from that
opening

about the revitalization plans for Grange Park:

⊗ The trees: I will adapt
a tree.

⊗ I like the benches
because it's a beautiful place
for the homeless to sleep
with the plants ~~safe~~
SAFELY during the day -
one day this problem
will be solved!

about the revitalization plans for Grange Park:

Will there be a smooth transition
from Butterfield Park to the Play
Area?

PYI - The park seems bigger than what it is.
Will we ever see something down to scale?

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

There is a great concern about
the realities of homelessness
in the park. Presently they
(^{mastercard}) communicate, defecate, urinate
and imbibe in drugs and effects of
alcohol. The benches are used
for sleeping. This situation is
real, constant and leaves us feeling
quite unsafe and afraid to
walk in the park. Lighting is also
bad!

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

The benches should have metal separation
for each person or there will be homeless
people sleeping on them because I see it
everyday! A small off-leash fencing would be
amazing!!! I hope when the trees are
being chosen to keep or not, that the
old knoted one stay because they are
beautiful, I LOVE looking AT THEM.

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

It would be nice if there was a fenced-in
area for dogs not on leashes. (separated from
the park) especially in the playground area.

Also, I often find the park at night time to feel
unsafe. Need to know there will be more lamps
and no "hidden" areas for lurkers.

Will the water feature be available 24-7?

*It would be great to have a closed off
Dog area within the park*

**GRANGE PARK REVITALIZATION
COMMENT CARD**

about the revitalization plans for Grange Park:

Can we have an off-leash,
fenced in dog park?

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback about the revitalization plans for Grange Park:

I'm disappointed to see there wasn't any consideration for the numerous residents who use the main space for an off-leash dog area. The current parking lot adjacent to Butterfield Park would be a perfect location. It doesn't have to be large, but a fenced off area for resident dogs would be wonderful.

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback about the revitalization plans for Grange Park:

Walk through Grange Park at any time of day, any season, and I guarantee you will see at least 1, and sometimes up to 10, dogs.

This proposal does not include a dedicated off-leash dog space, and its highly landscaped & manicured design in the west + east edges does not lend to dog visits. As a result, dogs will always be using/competing in the central lawn green space. The south end of "Zone A" as proposed has some potential for a fenced dog space.

about the revitalization plans for Grange Park:

Really great!

would be great to have water
fountains at 3 levels (adult,
children, dogs)

A dog area would be great.

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

This design takes away
the romantic / country-side
like feature of the park -
i.e. an forest oasis in the D.C.
core -

Leave as is - Keep fence
around - improve the lawn
That's it -

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

• Why open the historical
fence → shelter ~~the~~ the
peacefulness of the park

• Leave the Grove as a
naturalized space vs
manipulated - high design

• Keep the Central Lawn
as big as possible → this
concept takes big chunks out

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

o Time line way too short
2-3 Months? Is the rubber
stamping or community
input project?

o Where did all the work
put in by community
years back?

GRANGE PARK REVITALIZATION COMMENT CARD

Would love to see

more public

sculpture, ~~fountains~~ fountains,

benches.

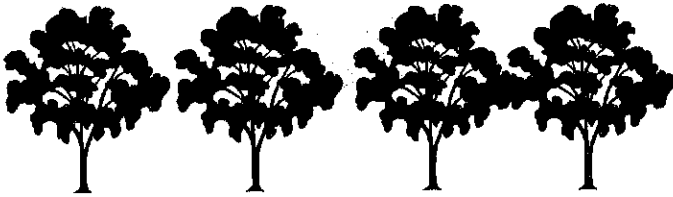

Give the people culture!

WE NEED MORE TREES
THEY HELP KEEP ~~THE~~ AIR
CLEAN

GRANGE PARK REVITALIZATION COMMENT CARD

Please share your ideas, comments and feedback
about the revitalization plans for Grange Park:

The Grange Park is an area
of natural elements - trees,
grass - in the city we already
strived for park space. It's
used a lot by residents of the
surrounding neighborhood.
Don't "revitalize it" by taking
the living elements out of it.
There's plenty of concrete, stone &
metal in downtown T.O. already.
